Diamond series
PROFESSIONAL
CERAMIC NONSTICK
PLUS COOKWARE

Exclusive nonstick cookware requires less oil for healthy cooking

THE DIAMOND DIFFERENCE

Our new Professional Ceramic Nonstick Plus cookware collection has a brilliant edge: each piece is made with DiamondSear technology that incorporates real crushed diamonds into the coating. The result? A long-lasting nonstick cookware surface with the durability of diamonds, unrivaled heat control and a unique texture that makes for the perfect sear.

CELEBRATE
EASTER!

Thoughtfully designed. Thoroughly tested.

▼ **Summary**

Envisioned by cooks, then perfected by expert engineers, our collections are designed for the way you cook. Each product goes through dozens of trials in our Test Kitchen to get it just right.

Summer is a pleasant season for all kinds of cold foods and juicy fruits.

Foodies Collection
The trend happy cookong.

SUMMER,
SWEET SUMMER,
LOVELY SUMMER

Morandi

Featured with Morandi matt color, this series is simply brilliant-in color, quality and performance. The color heat resistant lacquer coating adds eye-catching that enhances stove-to-table presentation. Our set includes all the essentials you need to prepare everything from scrambled eggs to gratins to hearty stew.

Starry

Starry starry night ,Paint your palette blue and grey
Look out on a summer's day,With eyes that know the darkness in my soul
Shadows on the hills,Sketch the trees and daffodils
Catch the breeze and the winter chills,In colors on the snowy linen land
Now I understand what you try to say to me
How you suffered for your sanity
And how you tried to set them free
They would not listen,They did not know how
Perhaps they'll listen now

Woks are a great example of how a centuries-old cooking tradition has been brought bang up to date with modern features such as glass lids, heat proof handles and non-stick coatings.This makes them appeal to a far wider audience than just the authentic Asian cooking purists yet they retain a certain “exotic” appearance that will entice anyone who loves 'foreign' food and cooking from scratch. They're a great excuse for cooking demos and creative displays too, so are well worth giving shelf space to.

Consumer FAQS

a Whuat are wols used for

The wok is the main tool used for Asan cooking it is a versatile product allowing you to steam, braise deep fry,or sit fry your ingredients. But it is not just Asian food: you can cook pretty much any dish- starter main or even dessert-in awok from popcorn to risotto A wok can even be used in place of a tagine tor Moroccan dishes

Q.Should I season my Wok?

Uncoated woks should be’seasoned’before first use This helps to create a build-up-over time-of carbon deposits.Many cooks say this so-called patina makes the food taste nicer and creates a protective surface.To season the wok,rub cooking oil across the entire inner surface,and then gently heat the pan until the oil starts to smoke.Now remove the wok from the heat and leave it to cook,then wipe off any excess oil with absorbent kitchen paper.This process needs to be repeated two or three times.The centre of the wok may darken during the process;this is a good sign as the Chinese say “the darker the wok.the better the cook”.

Care Instruction

Before using your pan for the first time, wash and lightly oil inner coating.

To preserve the non-stick coating, avoid overheating your empty pan

Never heat fat or oil to the extent that it turns and turns black

Most untensils are used, such as nylon, wood, but should avoid any sharp edged untensils

Cleaning Instruction

Clean the inner and outer coating of your pan with hot water, washing up a liquid and a sponge.

Do not use a metal sourcing pads, abrasive wire wool or harsh scouring powder.

If placed in the dishwasher, the outer coating may become dulled and discoloured due to the action of certain detergent.Our guarantee does not cover this type of wear.

Caution

Dishwasher use:certain detergent may contain corrosive elements which can harm cooking utensils contains alumiunm.

Do not overheat your utensils to avoid fumes that could be dangerous for small animal with particularly sensitive respiratory system, like birds, we suggest not put birds in the kitchen.
