An ultra-tough hard anodized aluminum body won't warp or wobble, no matter how many breakfasts, lunches and dinners it turns out—and it's free of PFAS, PFOA, lead, and cadmium, too. Like an on-call dinner-making crew, this set simmers soups, cooks fluffy grains, and turns out picture-perfect fish. Drip-free edges for easy pouring and oven-proof stainless steel handles for secure grips mean it's primed for every meal you dream up.

**PREMIER**

**It's time to elevate  
your cookware**

## Non-Toxic

Are the materials used in the non-stick coating safe for my family and the environment?

## Non-Stick

Does food easily slide around the cooking surface with a minimal amount of oil or butter?

## Cleaning

Are the pots and pans easily washed and cared for?

# LA CARTE

## Heat Conductivity

Does the surface heat evenly, avoiding cool spots and unevenly cooked food?

## Versatility

Does the cookware perform well no matter what cooktop or environment?

# Pots & Pans

*Make Every Meal a Win.*

## Choosing a New Set of Non Stick Cookware

Discover the excellence of modern non stick cookware when you refresh your collection of pots and pans with a cookware set made for home chefs today. These pieces are high-quality, easy-to-use, easy-to-clean and create a compelling visual scene in your kitchen hung from hooks over an island or stacked in a cabinet with a glass display. Cook your food in comfort and with confidence when you have a non stick surface that allows you to sauté vegetables, fry cuts of meat, crisp the outsides of potatoes or brown the edges of batter-fried foods. Imagine doing all this every day without the slightest concern of sticking and you'll see it's time to treat yourself to non stick cookware.

### What Is Non Stick Cookware?

Non stick cookware refers to pots and pans that have an interior cooking surface that doesn't cause food to adhere. The surface of the pot or pan is coated with an application that allows the food to brown and then easily lift off the cookware using common cooking tools, like a spatula or spoon.

You can find a well-made non stick version of almost any piece of cookware you want.

Fry pans are one of the most popular types of cookware because you can use them for so many meals and sides.

Sauce pans have higher walls than fry pans, so that you can allow thick liquids and sauces to bubble and simmer without splashing. A non stick coating lets you simmer for long periods of time to blend flavors and aromas.

Even stock pots have non stick benefits. When you make a hearty soup or stew, it's reassuring to know that heavier ingredients, like chunks of beef or thick potatoes and carrots, can come into contact with the pot without upsetting the balance or texture of the dish.

Check out griddles and grill cookware for special cooking like pancakes or outdoor dining and entertaining.

### Non Stick Pieces For Your Cookware Collection

If you already have pots and pans you love, you may want to add a few pieces of non stick cookware to your collection for the days when you're pressed for time and still want something delicious and healthy. Save

time by investing in

non stick

pots and pans for days when you have more time to indulge in cooking.

For a powerful non stick surface and cookware that still looks amazing and lasts year after year, explore popular brands like Calphalon, All-Clad or SCANPAN.

# VITA

Featuring cutting-edge cooking technology, the Collection offers high-powered stovetop performance. Look closely and you'll see we've decked out each piece with a specially textured surface for speedy browning and effortless release. We even added 40% more cooking space than our traditional sets, because extra real estate is always welcome. As always, our healthy ceramic nonstick is free of PFAS, PFOA, lead, and cadmium, too. Here to cover all your bases (and burners), this set whips up everything from scrambled eggs to tender roasts

## TAJINE & COUSCOUS

ULTIMATE

# HEALTHY COOKING

## STARTS WITH GREENPAN

Since inventing healthy ceramic nonstick cookware in 2007, we've dedicated ourselves to advances that make cooking better for everyone.

### Healthy Ceramic Nonstick

Breathe easy, Greenpan is free of PFAS, PFOA, lead and cadmium.

### Don't Like Plastic? Don't Cook on it.

Traditional Nonstick = Plastic  
Ceramic Nonstick = Not Plastic

### Not Just Easy to Clean, Made Clean

We use recycled materials in our solar-powered factory and filter the wastewater in-house.

**NON-STICK**

### Care Instruction

Before using your pan for the first time, wash and lightly oil inner coating.

To preserve the non-stick coating, avoid overheating your empty pan

Never heat fat or oil to the extent that it turns and turns black

Most utensils are used, such as nylon, wood, but should avoid any sharp edged utensils

### Cleaning Instruction

Clean the inner and outer coating of your pan with hot water, washing up a liquid and a sponge.

Do not use a metal scouring pads, abrasive wire wool or harsh scouring powder.

If placed in the dishwasher, the outer coating may become dulled and discoloured due to the action of certain detergent. Our guarantee does not cover this type of wear.

### Caution

Dishwasher use: certain detergent may contain corrosive elements which can harm cooking utensils contains aluminum.

Do not overheat your utensils to avoid fumes that could be dangerous for small animal with particularly sensitive respiratory system, like birds, we suggest not put birds in the kitchen.

## Executive Nonstick vs. Stainless Steel

- ▶ Best for low- and no-fat cooking, and cooking fragile food like eggs or fish.
- ▶ Cook on gas and electric stoves, and in the oven (up to 400°F).
- ▶ The nonstick coating makes cleanup easy.
- ▶ Durable hard-anodized aluminum reinforced with titanium.
- ▶ Guaranteed for life.

- ▶ Best for searing meat and making sauce and gravy.
- ▶ Cook on gas, electric, and induction cooktops, in the oven, and under the broiler (up to 500°F). Lids are heat-safe to 400°F.
- ▶ Dishwasher-safe for easy cleanup.
- ▶ Tri-ply clad—aluminum core between two layers of stainless steel.
- ▶ Guaranteed for life.

A collection of kitchenware including pots, pans, and bakeware. The items are arranged on a light-colored surface. In the center, there is a stack of three stainless steel pots with blue exteriors. To the left, there are several bakeware items: a muffin pan, a cookie sheet, and a square baking tin. In the foreground, there are two frying pans, one blue and one orange. To the right, there is a large blue deep fryer with a stainless steel mesh basket. In the background, there are more bakeware items, including a large orange tray and a smaller blue tray. A black oval with the text 'HI'COOKER' is positioned in the upper right corner. In the foreground, there are some fresh ingredients: a lime wedge, some green herbs, and several small orange cherry tomatoes.

HI'COOKER

## KITCHEN IN A BOX.

This 20 piece set includes a full suite of frying pans, skillets, stock pots, sauce pans, deep frying pans and mesh basket, and all bakeware tools; cookie sheets, muffin pan and baking tins.
